Paper Title

Electric Vehicle Revolution In India

Abstract

India is seeing a slow transition to electric vehicles which at the same time is being left behind by the US, China and Norway which have seen great growth in EV's because of aggressive policies and financial incentives. In this paper we look at the present state of electric vehicles in India. We cover government programs, market trends, issues and what the future holds. Also it is brought to light that in India two and three wheel electric vehicles are leading the pack which we put down to their lower price point and operating costs. That said we still see issues like lack of charging infrastructure, high initial outlay and dependence on import of batteries as barriers to growth. The paper puts forth that for the long term success we need to see ongoing policy support, growth in infrastructure and local battery production.

Submission Questions Response**1. Corresponding author Email ID**

Provide Email ID of corresponding author

vinaysharma8125@gmail.com

vishal2536.be22@chitkara.edu.in

harsh1627.be22@chitkara.edu.in

2. Contact number with country code

Provide Whatsapp number of corresponding author with country code

+91 7015773971

+91 7488907986

+91 9905340054

3. Author's Information

I confirm that I have listed the title of the paper and the names, email addresses and affiliations of all contributed authors in the submission system that match the order as given in the submitted paper

Agreement accepted

4. Co-author's Consent

I confirm that I have discussed about this submission with all co-authors and authors have approved the paper and agree with its submission to this conference.

Agreement accepted

5. Certificate of Originality

I confirm that neither the paper nor any parts of its content are currently under consideration or published in another conference/journal and the paper is free from plagiarism

Agreement accepted

6. Author's Consent

It is confirmed that at least one author will register in full to attend and present the paper at the Conference.

Agreement accepted

7. The use of artificial intelligence (AI)-generated text (e.g., by ChatGPT)

I confirm that no text in the paper is AI-generated.
